

FIRMING CREAM

FIRMING TREATMENT CREAM BASED ON A HIGHLY INNOVATIVE BEAUTY FORMULA DESIGNED FOR MATURE SKINS THAT SHAPES FACIAL LINES AND ADDS BRIGHTNESS, FIRMNESS AND ELASTICITY TO YOUR SKIN.

Facial cream with an innovative formula that gently envelops the skin and penetrates deeply: it is a firming treatment that visibly shapes facial lines and gives your skin a firm and radiant appearance.

It is an extraordinary complex, a concentrate of pure energy powered with the latest generation of active ingredients, protects the skin against dryness and strengthens its cohesion by improving natural components such as collagen and elastin.

Facial dermis is significantly more structured and its cohesion with the epidermis is strengthened.

HOW TO USE IT

Each morning and evening, after an accurate cleansing, apply the cream across your face, massage with small circular motions until it absorbs completely. In case of skins with reduced firmness, a daily application is recommended.
